Spannungen mit Grundig-Röhrenvoltmeter bei 220V-gegen Masse gemessen.
Meßwerte gelten für Mittelwelle, Drehkondensator eingedreht ohne Signal an der Antenne.
Änderungen vorbehalten.

Voltages measured to chassis with Grundig V1VM at 220V AC
Measuring values valid for medium waves, tuning condenser turned in without signal on aerial.
Alterations reserved.

Tensions de service mesurées a chassis avec Grundig voltmètre à lampe universelle à 220V CA
Les tensions de service sont valables pour ondes moyennes condensateur variable fermé sans signal à l'antenne.
Altérations reservées
